

The FCC is requesting public comment on their proposal to expand the LPFM service. Such expansion would allow these stations to take priority over current FM translator service. K-LOVE is one of many Christian-based stations that utilize the FM translator service. We have two children, ages 7 and 12, and our family is among the hundreds of thousands of people that are regular listeners to K-LOVE. We enjoy the positive influence K-LOVE extends to us and the community we live in. We are very concerned that the K-LOVE signal could be replaced by an LPFM which may not have the same family-friendly programming we value. Please discontinue pursuit of your expansion efforts of LPFM. Stations like K-LOVE support a wholesome and encouraging impact on communities all across America and we want to keep that available to everyone. Thank you.
